

Product Technical Details

Category	Details
Product Name	Paper-Based Printed Hang Tag
Product Type	Paper-based accessory used for labeling garments, clothing products, and accessories.
Product Function	Used for branding, size information, care instructions, and product details on garments and fashion items.
Materials	Wood Pulp
Base Material	High-quality, durable paper, possibly with a cardboard or recycled paper composition.
Inks or Dyes	Non-toxic, skin-safe, and environmentally friendly inks. The inks used are Oeko Tex 100 certified, ensuring no harmful substances.
Flammability	Made from fire-resistant paper and printed with non-flammable inks.
Durability	Designed to withstand normal handling, wear, and exposure to environmental factors like light and moisture.
Non-Toxic Inks and Dyes	All inks and dyes used are certified non-toxic and compliant with Oeko Tex 100 standards.
EU Safety Regulation	Compliant with EU product safety regulations, ensuring no harmful substances are present.
Standard	FSC Certified, ensuring materials used are free from harmful chemicals.
Reach	REACH compliant, confirming that no harmful substances are used in the manufacturing process.
Recyclability	Fully recyclable, depending on local recycling facilities.
Washing Instructions	Include symbols for washing instructions if the hang tag will be attached to washable garments, e.g., machine wash, hand wash.
Durability Testing	Tested for durability against normal wear, tear, and environmental exposure (light, moisture, etc.).
Consumer Labeling	The hang tag is printed with clear product information and is FSC certified.
Product Packaging	Corrugated Box
