

## Product Technical Details

Category	Details
Product Name	Printed Care Label
Product Type	Textile accessory used to provide care instructions, washing symbols, and other relevant information on garments and textiles.
Product Function	Provides essential information such as washing instructions, ironing guidelines, and fabric care on garments or textile products.
Materials	Polyester
Inks or Dyes	Non-toxic, skin-safe inks or dyes used for printing care instructions. Inks are Oeko Tex 100 certified, ensuring safety and quality.
Flame Retardancy	Care label made from flame-retardant materials, suitable for garments requiring fire safety standards.
Durability	Label is resistant to fading, abrasion, and washing, ensuring the care instructions remain legible through the product's lifecycle.
Non-Toxic Inks and Dyes	Inks and dyes used are non-toxic, ensuring safety when in contact with skin, and compliant with Oeko Tex 100 standards.
EU Safety Regulation	Compliant with EU product safety regulations (such as EN 71, REACH), ensuring no harmful substances are used.
Standard	Oeko Tex 100 Certified, ensuring materials and printing processes are free from harmful chemicals.
Reach	REACH Compliant, ensuring that no restricted or hazardous substances are used in the manufacturing process.
Washing Instructions	Printed with washing symbols (e.g., machine wash, hand wash, temperature limits) to guide consumers on proper care.
Ironing Instructions	Ironing symbols and temperature guidelines printed on the label.
Wash Resistance	Tested for resistance to fading, shrinking, and degradation during multiple washing cycles.
Durability Testing	Tested for durability under normal handling conditions, including exposure to moisture, abrasion, and washing.
Consumer Labeling	The care label complies with Oeko Tex 100 standards, ensuring no harmful chemicals are used in the printing and material composition.
Product Packaging	Corrugated Box
